

Sibling Scheduling

Lakeside Dental Surgery Center is pleased to offer families the opportunity to schedule siblings on the same day for their dental treatment, if necessary. However, doing so can bring additional challenges to the patients' families, other patients and their families, and the surgery center's staff.

Due to the unique circumstances with each patient, such as start time, finish time, recovering time, NPO requirements, and more, it is necessary for each sibling patient to be cared for individually and separately.

The scheduling of siblings on the same day will be allowed only if the following details are reviewed, acknowledged and this document is signed by the patients' family or primary responsible party.

By signing below, you are acknowledging that you have received and reviewed the information below and will comply with these requirements on the date of service.

- There must be a separate parent / responsible party onsite and available for each sibling patient.
- There must be a separate dedicated driver and vehicle for each patient so that each sibling patient is able to adhere to their own unique arrival and discharge schedules.
- If the sibling patients require a single parent / responsible party to "check-in" or "pre-op" all sibling patients, please notify the team immediately so we can help accommodate these special circumstances.

We appreciate your understanding and encourage you to reach out to your patient navigator with any questions.
